

A FAIRness assessment for training materials

Paris BioHackathon

Leyla Jael Garcia Castro (ljgarcia@ebi.ac.uk)

Knowledge and semantic web coordinator

Elixir HUB

Paris, 12th to 16th of November 2018

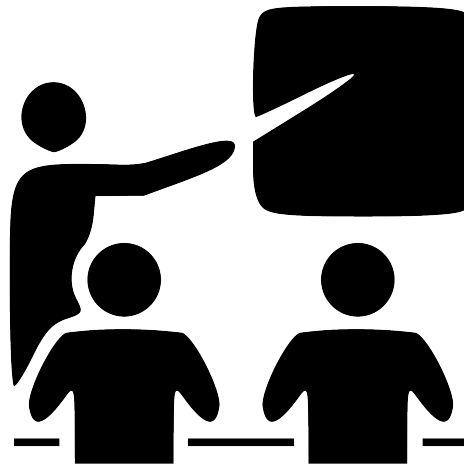

- Go to the project space at <https://github.com/elixir-europe/BioHackathon>
- Click on Training
 - Click on “Assessing the FAIRness of Training Materials”

Participation

Hackers

F_{indable} A_{ccessible} I_{nteroperable} R_{eusable}

Outcomes

- List of participants
- List of training materials
- FAIRness assessment of chosen training materials with current metrics
- Reflection on challenges faced
- Set of training material specific rules → adaptation or adoption of current ones

- Join us on **Tuesday** for an intensive hacking day
- If you cannot join on Tuesday but are still interested, share your thoughts via GitHub issues, use the label “project: FAIR training”
 - <https://github.com/elixir-europe/BioHackathon>
- Contact us to become part of the Elixir task force working on FAIRness for training material
 - Everybody is welcome to participate
